高雄商港安檢所 連續破獲非法槍枝、毒品 走私案

The Coast Guard
Inspection Office on
Port of Kaohsiung
Wisely Ferrets Out
Sequential Cases of *Smuggling
Guns and Drugs*

本(96)年11月間，海巡署高雄商港安檢所執檢人員於11月6日上午在「高金碼頭」貨物執檢區(15號碼頭)發現「南海輪」載運改造手槍零件及槍管計14箱；11月8日上午又於高雄港淺水碼頭抽檢「延聯輪」時，當場查獲貨輪夾藏毒品。該所連續破獲非法走私槍枝半成品以及毒品案件，為海巡署護地衛民工作再添佳績。

On 6 November 2007, the staff of the coast guard inspection office on Port of Kaohsiung tracked down 14 packs of reinvented barrels and components of pistols on "South Sea Ship" at the goods inspection zone of Gao-Jin Pier (Pier No. 15). Then, on 8 November, they also found smuggling drugs hidden with "Ting-Lian Ship" when executing a random inspection at Shallow Pier, Port

本刊在案件移送偵辦後，隨即至破獲兩起案件的高雄商港安檢所所在地，訪問了該所所長馮玉梅，這兩起案件緝獲內容及數量龐大以及走私方式特殊，增添許多破案的困難度，關於這點，馮所長首先提到：「商港與一般漁港屬性有別，商港特重於貨物的進出口運送，而且貨物吞吐量極大，加上商港的碼頭卸貨分區多，在此情況之下，想要一一清查所有進出港的貨物，以目前本署執檢人力而言，執行上確實有困難度。因此，南巡局局長楊麗川多次與幹部開會商策，如何擬定一套適用於商港貨物檢查的標準作業流程，以掌握經由港口運出以及進口的貨物都能確實受到嚴格的查驗。」她緊接著說明：「為了澈底阻絕犯罪，在初期，我們模擬了各項可能發生的走私以及運贓路線，嚴格查倉，但這也造成了與業者的衝突、對立不斷，引發民怨，南巡局為了取得雙贏局面，在多次的挫折後，我們從中學習和改變了許多安檢方式。楊局長特別要求成立專案小組，並由檢管組針對商港特性作一研究分析，研擬貨運進港作業以及出口查贓作業流程，我們特別召集航商、港務局……等相關單位進行協商後，最後設立了『貨物檢查專區』，規定所有進出貨物都要經此專區過濾後再上櫃，同時也依據轄區屬性的不同，規劃適合的施檢步

of Kaohsiung. The office has scored victories for the Coast Guard Administration to guard the public by breaking several cases of smuggling drugs and unfinished guns.

After these cases been referred to the local district prosecutors office, the publication editors interviewed the chief of this inspection office, Fong Yu-mei, for the difficulties to ferret out such a large quantity of smugglings in specific way. Chief Fong firstly illustrated, "Commercial harbors, different from fishing ports, are mainly for large quantity of goods transportation with many loading operation fields, so it is hard for my inspection office with limited manpower to monitor all of the importing and exporting goods." She continued, "To figure out a set of standard operating procedures on inspection for commercial harbors in pursuit of a strict examination of imported and exported goods through the port, the director of the Southern Coastal Patrol Office, Yang Li-chuan, had called several meetings with the executive officers. At the beginning, we simulated various smugglings activities and related traffic ways, and then conducted strict inspection on ships' cabins, whereas it aroused opposing and confrontation from the industry. After several frustrations followed, the Southern Coastal Patrol Office learnt from experiences and decided to adopt a win-win strategy changing inspection ways." "Director Yang asked to assemble an ad hoc team to analyzed characteristics of the commercial harbor and set an examination procedure for smuggled goods on the entry of freight and exporting operation. Then, we coordinated with ship agencies, the harbor bureau and other related organizations and finally set up the Special Inspection Zone, through which all the imported and exported goods had to pass before loaded. In addition, we, considering the

驟以防範各種可能的非法行徑。由於本所平時貨物吞吐量極大，我們與鄰近各安檢所協調，調撥人力並集中於「貨物檢查專區」以有效安檢，此次近四百枝半成品槍枝能被查獲的最主要原因，就是因為明確的政策走向以及團隊的默契配合。」

◆ 所長馮玉梅(前排左三)與所內同仁像家人般相處融洽，使他們發揮良好的工作效能，為繁忙的商港做最好的把關。
Chief Fong Yu-mei (center) treated her staff as families and encouraged them to perform efficient jobs guarding the busy port.

高雄商港安檢所藉由「貨物檢查專區」查獲了近四百枝改造槍枝以及子彈的半成品；後又利用岸與港區邊際的在地優勢，於不法份子一進入港嘴後，即刻圍堵查獲毒品。除了南巡局精進措施發揮了最大的效率之外，該所積極作為更是本次連續破案的要素之一，該所馮所長是目前南巡局所屬安檢所當中，唯一的女性主管，而她所帶領的高雄商港安檢所內，還有另外4位女性同仁任職其中，該所可說是性別分配最為平均的單位，雖然平時工作緊湊、繁重，馮所長營造的團隊默契以及融洽的工作氛圍，更激勵了團隊成員戮力勤工。

海巡署為了杜絕不法，保護合法廠商權益，制定一系列的港區相關安檢措施，當然，衝突與不適應是在所難免，但為了讓國內有更好的經濟發展以及護衛人民生命財產的安全，幾經與民眾溝通與調解之後，從磨合期至今，已逐漸步上軌道。海巡署也將以不怕難不畏苦的精神，在拼經濟的這條路上，擔任破冰船的任務，始終護衛全民，導航前行。

location characteristics, planned proper inspection procedures to prevent possible illegal activities," chief Fong concluded. "Because of the manpower of my office being unaffordable to inspect the large quantity of containers, we coordinated with closer inspection offices to support the implementation at the Special Inspection Zone, then depending on this clarified policy and good teamwork, we finally intercepted the smuggling goods of this case-nearly four hundred unfinished guns."

The coast guard inspection office used the Special Inspection Zone to seize unfinished four hundred reinvented guns and bullets, and took the locative advantage of closing the port to block off smuggling drugs on the time suspects were entering the mouth of the port. One of the key factors of breaking the cases lies in the coast guard inspection office's active acts besides a greatly efficient set of measures by the Southern Coastal Patrol Office. Chief Fong is the only female administrator of inspection offices in the Southern Coastal Patrol Office, and except for her, there are the other four female officers in this office that is the best unit of the gender distribution. Although this office gets used to shouldering grave responsibilities in most days, Chief Fong creates an excellent teamwork environment to inspire her staff well perform.

Targeting on crime swapping and legitimate business protection, the Southern Coastal Patrol Office has communicated with the opponents who aren't used to the inspection procedures; now confrontations are successfully solved and related inspections are well executed. The Coast Guard Administration will insist on steering an icebreaker on the way of prospering the country's economy to guard the public no matter how difficult its mission will be.
